ABOUT US

Xsso Laminate has set a quality benchmark in the interior design industry. It offers some of the most excellent grade compact and durable laminates in India.

Laminates are resilient and flexible products with unlimited potential in interior designing. However, It shares a transparent background. We work towards not only reinventing the way laminates are looked at but also how they look. using vibrant colors and finishes, We try to give laminates a complete make over like never before. We conceive laminate not just as an economical counter top, But also a unique design element that can add character to any decor.

PRODUCT INFORMATION & WARRANTY	
Technical Name	Decorative High Pressure Laminate
Size	1220 mm X 2440 mm (8' X 4')
Thickness	1 mm (Other thicknesses may available on request)
Quality Standard	Accomplish requirements of IS: 2046 (BIS)
Warranty	Xsso warrants that their products are free from any manufacturing defects and is suitable to utilize for normal and usual purpose only. It is recommended that the product should be inspected prior to installation. If found any visual defects, the product should not be used, cut or altered in any manner. Warranty will be limited to cost of the products only and no claims will be entertained after fixing, alteration or used of the product.
Note	Samples presented are indicative in all aspects i.e., colour, pattern, surface finish, thickness, etc. High gloss sheets are recommended for vertical application only. Other Combinations of colour, pattern and surface finish are available on special request.

PROTECTING THE SURFACE
Scratch and Impact Protection Don't place lighted cigarettes directly on laminate surface. Knives or other sharp utensils may slice or scratch the surface. Don't chop, slice, pound or hammer on any laminate surface. Avoid ironing or placing a hot iron on laminate surface. Hot cookware should not be placed directly on laminate surface. Heavy blows of hammer or metal may crack the laminate surface.
Ordinary Cleaning In most cases, only need to use a clean, damp, non-abrasive cotton cloth and a mild liquid detergent or household cleaner and rinse with clean water. Don't flood the laminate since water can be absorbed and results substrate to swell. Dry the surface with a soft, clean and non-abrasive cotton cloth.
Chemical Damage Never use cleaners containing acid, alkali or sodium hypochlorite. These cleaners will mar, etch, corrode and permanently discolour the laminate surface. Also make sure that bottles, rags and other materials contaminated with these cleaners never come in contact with the laminate surface.

DIRECTION OF USE
Before using laminate please ensure that the surface of plywood and laminate are clean, dry and free of other contaminations.
Please well stir adhesive before use and don't add water in it. Also ensure that applied adhesive is sufficient or not?
Once laminate pasted on plywood surface don't forget to apply adequate pressure for perfect bonding. To remove air bubble from assembly use roller press from centre of assembly towards edge of assembly.
A gap of minimum 2 mm should be maintained between two laminates while pasting side by side.
